If your business, agency, or organization works with people from poverty, only a deeper understanding of their challenges—and strengths—will help you partner with them to create opportunities for success.

*Bridges Out of Poverty* represents a powerful tool for change. Based in part on Dr. Ruby Payne's myth-shattering *A Framework for Understanding Poverty*, *Bridges* reaches out to the millions of service providers and businesses whose daily work connects them with the lives of people in poverty.

*Bridges* training contains case studies, detailed analysis, helpful charts and exercises, and specific solutions you and your organization can implement right now to:

- ✦ Redesign programs to better serve people in poverty
- ✦ Build skill sets for management to help guide employees
- ✦ Upgrade training for front-line staff like receptionists, case workers, and managers
- ✦ Improve treatment outcomes in health care and behavioral health care
- ✦ Increase the likelihood of moving from welfare to work
